

## **Epilogue Support**

Welcome to Epilogue Support! We are here to help, and have provided several options for you to ask us your questions and share your ideas:

### **Portal (recommended)**

Access our Community portal via <https://epilogue.force.com> to log a case. On the Community, you will have access to your current and past cases. In addition, our Community provides you opportunities to connect with other Opus users to share peer to peer knowledge and a channel into our Product team to provide feedback.

### **Phone**

Call 281-249-5405 for support during the hours of 9am - 6pm ET Monday - Friday (except holidays). All calls will be logged as a support case and will be accessible in our Community.

Please let us know how else we can support you by submitting an idea via our Community portal. We look forward to working with you!
